Hello Doug:

JBR is moving ahead with the information-gathering and preparation of the NOI for Geneva Rock's South Hansen Quarry at Point of the Mountain in Salt Lake and Utah counties (M/035/026). The cultural resources survey should be completed as of today; the US Fish & Wildlife Service request letter has been submitted; on the 15th we received a copy of the overall site map/aerial, and last week we received the Phase I map and surety estimate from Geneva Rock. We would like to submit as complete a package as possible to the Division, and on behalf of Geneva Rock we would like to request an extension to the September 30, 2005 due date for the NOI and Operations Plan noted in the August 9, 2005 correspondence from the Division (Daron Haddock) to Mr. Tony Christofferson of Geneva Rock. If allowable, 4 to 6 weeks would be appreciated. Thank you for this consideration.

I left you a voice message and hope to talk to you in the next day or so.

Thanks again!

Linda Matthews
JBR
